

## Official White Paper

### General Information

- Token Name: **DADACOIN**
- Symbol (Ticker): DADA
- Network: Binance Smart Chain (BSC)
- Token Type: Memecoin  
Total Supply in
- Total Supply in Circulation:  
**500,000,000,001** DADA
- Maximum Supply:  
**500,000,000,001** DADA

# Vision and Mission

## ◆ Vision and Mission

Most popular memecoins rely on **bright colors, cute animals**, and a cheerful atmosphere. As a result, they all end up looking the same the same style, the same energy, the same empty promises

The foundation of a project like this lies in its philosophy.

**DADACOIN** will not follow this formula. Instead, it will take a radically different approach. Its mascot is a grumpy panda, tired of market illusions and amused by the surrounding naivety — a character who finds nearly everything ridiculous, especially other memecoins he sees as simple clones.

**DADACOIN** will embody an original ideology: a satire, a caricature of the crypto world, built through dark humor and the sharp personality of its mascot. It is a parody of the market, a universe that has become too euphoric, too noisy, too “**woof woof.**”

## Objective

### ◆ Objective

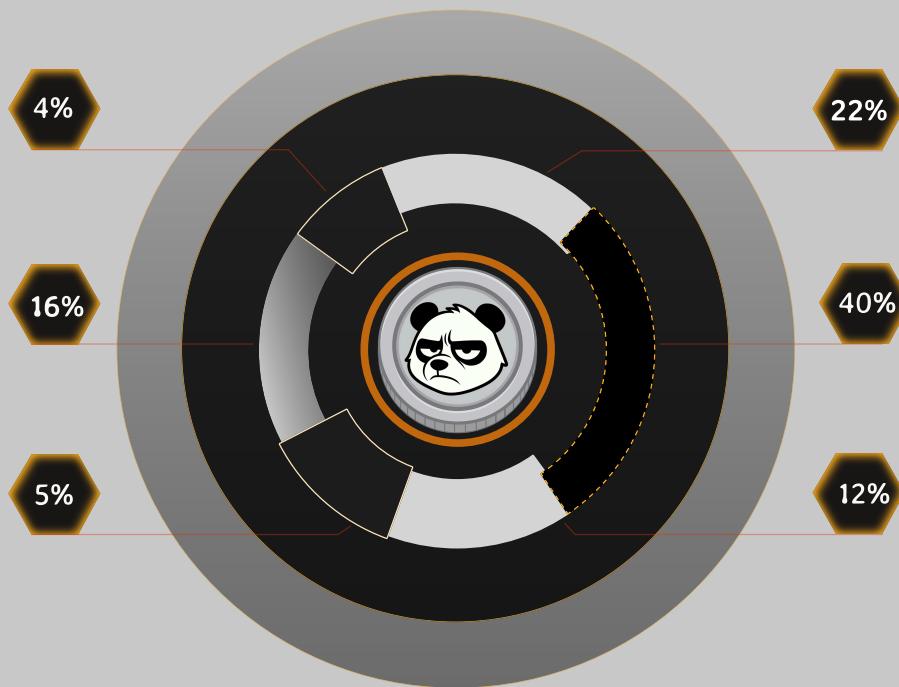

Create a community-driven memecoin that goes against current standards. Decentralize **DADACOIN** by maximizing supply dilution.

## ◆ Tokenomics

Category	Description	Percentage
Liquidity Pool	Ensures stability and a fair launch.	40%
CEX Listings	Future centralized exchange listings.	16%
Burn	Increases scarcity through destruction.	22%
Development	Project evolution and long-term growth.	12%
Airdrop	Community distribution at launch.	04%
Moderation	Management of all community channels.	05%

Management of all community channels.

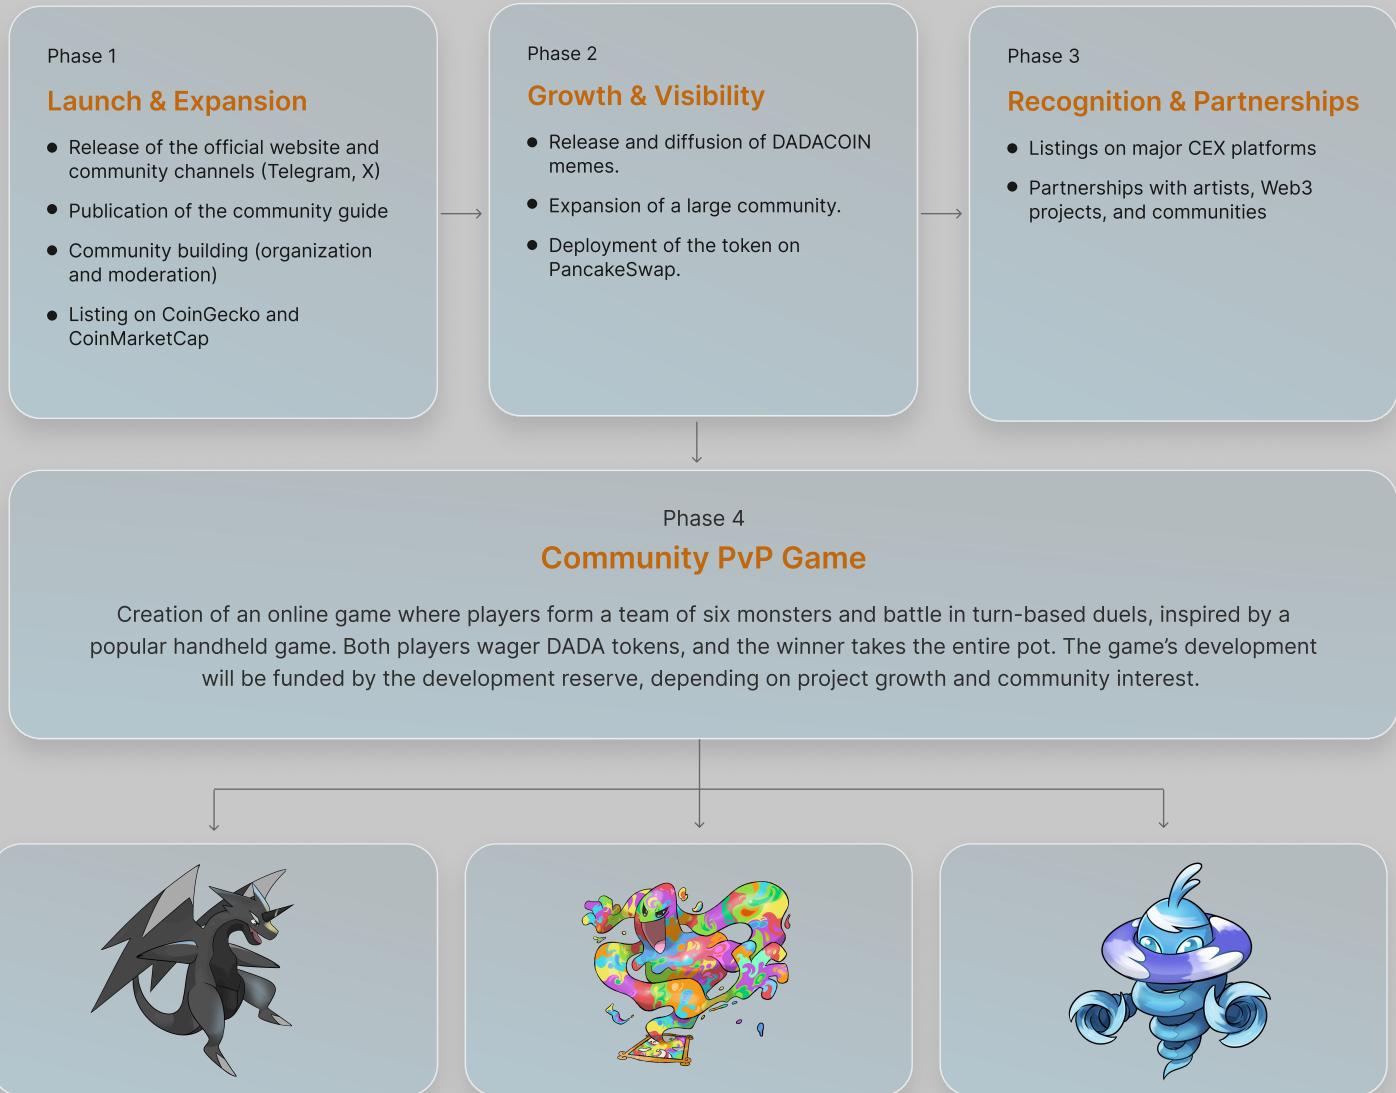

Total Supply: **500,000,000,000,001** DADA, **No presale** · **No taxes** · **Liquidity locked**

## ◆ Roadmap

Create a community-driven memecoin that goes against current standards.

Decentralize **DADACOIN** by maximizing supply dilution.

# Security and Governance

## ◆ Security and Governance

### Governance

**DADACOIN** will operate without a **central authority**. All decisions will be driven by the **community**. The contract ownership will be renounced to guarantee full decentralization.

### Security

The smart contract will undergo two **independent security audits**. Its source code will be **public, readable** on BscScan and GitHub.

## ◆ Team & Origins

Founder: **Sunjinwo76**

Chosen anonymity to preserve the decentralized nature of the project.

## Disclaimer

### ◆ Disclaimer

A cartoon illustration of a panda wearing a red superhero suit with a yellow 'S' emblem on the chest. The panda is in a dynamic flying pose, with one arm raised and a determined expression.

**Attention !**

**DADACOIN** (DADA) is a community-driven, humorous, and experimental project that should not be considered a financial investment, a promise of profit, or a **regulated asset**. No future value, stability, or success is guaranteed, and the token may fluctuate or lose all value. **Users act at their own risk and must conduct their own research; DADACOIN offers no financial, legal, or tax advice. Even with audits and public transparency, no system is fully free from technical risks or vulnerabilities.** Like any crypto project, DADACOIN may be imitated; users must remain cautious with the information they trust. **DADACOIN** should be approached as a cultural and community initiative, with humor, perspective, and freedom.
